Newport Landing is ideally positioned to take advantage of the annual Grey Whale migration along the Orange County coastline! We are hitting the migration during its busiest time - hundreds of Grey Whales travel along the Laguna Beach coastline and within minutes of Newport Harbor. Along with viewing Grey Whales, you can expect to see dolphins, sea lions, and marine birds. Killer Whales, sharks, and many other marine creatures may also be observed. **Bring: Warm jacket, flat shoes, sunglasses and a camera!**

### Behind the Scenes at the Aquarium of the Pacific 12:45 PM - 4:30 PM

Venture "behind the scenes" in this private tour! You'll also get to go above the aquarium's largest exhibit, Tropical Reef, to feed the fish! This tour provides a sneak peek into the daily operations of the Aquarium of the Pacific. Guests will enter the "wet side" of the aquarium, a section not normally open to the public. See what it takes to maintain a world-class aquarium, from water filtration to animal care and feeding. Learn interesting facts about the Aquarium of the Pacific's 11,000 animals. ### The Three Pier Bike Tour 1:45 PM - 5:15 PM

Cruise your way along the Huntington Beach and Newport Beach bike paths for a tour of Surf Town USA, with a little history of the coast and its piers along the way! The first pier was built in 1903, and since then storms and earthquakes have changed the shoreline over the years into what we see today. Stop and view a little surfing at The Wedge, and some fisherman at the Balboa Pier. We will make a stop at a pub to quench your thirst along the way. **Bring: Bike-appropriate clothing and closed-toed shoes.**

### Hike in Laguna Coast Wilderness Park 1:15 PM - 4:45 PM

Laguna Coast Wilderness Park lies within some of the last remaining coastal canyons in Southern California. Forty miles of trails lead the visitors through oak and sycamore woodlands and up onto ridges with expansive scenic coastal vistas. Rocky bluffs tower over the canyon trails. Visitors to Laguna Coast Wilderness Park can see California as it has existed for thousands of years. This is a strenuous, intermediate hike with a substantial climb from sea level to a ridge in Laguna Coast Wilderness Park. **Bring: Hiking shoes or sneakers, and a hat is recommended!**
